Health Advisory

MIAMI, FL ~ March, 2020 – The safety, security, and comfort of our guests, visitors, and team members are of the utmost importance to us.

At Hampton, our team follows strict guidelines, brand standards and procedures to ensure every room and our public areas are cleaned and sanitized to the highest levels for all our guests and visitors.

In addition to the routine cleaning procedures, additional measures have been taken to ensure we are doing everything in our power to reduce the spread of germs including the Coronavirus.

Furniture, equipment, and places that are commonly used by our guests are frequently and consistently sanitized by our team with disinfecting wipes and sprays. Guestrooms are also cleaned and disinfected using the same procedures before the rooms can be occupied.

Our team members are equipped with hand sanitizing products and wipes to sanitize their hands and surroundings and use them frequently.

We are doing everything in our power to help stop or minimize the spread of germs and viruses to give peace of mind to our guests, visitors, and team members which are always our main focus.

About Hospitality Operations, Inc.

Incorporated in 1959, its direction was focused in 1994 to develop, own and operate franchised hotels. An exceptional capable team of architects, designers, contractors and construction consultants were brought together to build Hospitality Operations, Inc. into one of the fastest growing and successful hotel development companies in South Florida.

A devoted well trained and loyal group of operational personnel has been assembled to assure a high level of guest attention and satisfaction at each of our hotels. For additional information visit www.hoihotels.com.
